

Valve Service & Products

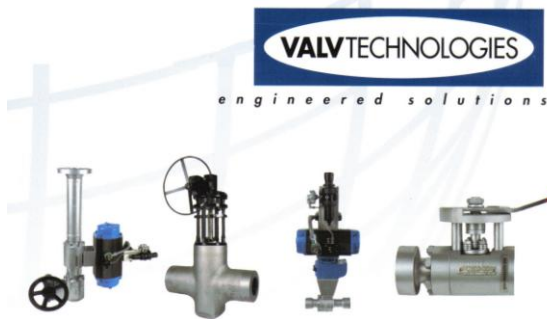

Let Us Exceed Your Expectations
With a staff serving Florida since 1985

- Authorized **CONSOLIDATED** “Green Tag Center”
- Section I Safety Valves
- Section VIII Safety Relief Valves
- Spring Loaded Valves
- Pilot Operated Valves
- Electronic Relief Valves
- Sizes from ½” to 24”
- Pressures from 150# to 4500#
- Steam, Air, Gas, and Liquid Service
- Local Inventory

- **VALTEK** Rotary and Linear Control Valves
- Low Noise and Anti-Cavitation Trim
- Combination Trims wide flow ranges
- Severe Service and General Service
- 150# - 4500# Pressure Classes
- Quick Delivery Program

- **VALVTECHNOLOGIES** Metal Seated Ball Valve for Severe Applications
- Bubble Tight, Zero Leakage
- Pressure Classes from 150# to 4500#
- Sizes from ½” to 36”
- Temperatures up to 1500 degrees F
- Fully Repairable
- A105, F22, F91, and 316 SS material plus exotics metals
- Xactrol Control Ball Valve
- Severe Service Slide Gate
- Electronic Relief Valve
- Local Inventory

- **HABONIM** Three-Piece and Two-Piece Soft Seated Ball Valve
- V-Port contoured trim for throttling applications
- Diverting Valves
- Butt weld, socket weld, threaded, and flanged connections
- High pressure to 6000 psig
- Cryogenic to -320 F
- Clean applications

-
- **TRICENTRIC** Wafer, Lug, and double flanged butterfly valves for isolation
 - Bubble Tight, Zero Leakage
 - Triple offset metal seated design
 - Fire Tested, Bidirectional
 - Sizes from 3" to 96"
 - Pressures from 150# - 600# class

Tricentric

- **LIMITORQUE** Industrial Grade Electric Actuators
- Linear and Quarter-Turn Applications
- All voltages
- Quick Deliveries

-
- **DIAMOND GEAR & ROTORK**
 - Quarter-Turn Manual Gear Boxes
 - Bevel Gear Manual Gear Boxes for linear motion

rotork®
Fluid Systems

FOSSIL™
Aquarian

- **FOSSIL AQUARIAN** Previously made under the "Yarway Aquarian" name
 - Boiler Drum Level Indication
 - Bi-Color Water Level Gauge
 - Bi-Color Water Level Gauge Illuminator and Display
 - Conductivity Probe Level Indication
 - Single Probe Alarm Module
 - Quality spare probes to fit other Manufacturer's systems
 - Fossil Burners and Burner accessories
-

We take pride in consistently engineering the right solutions.

Actuators are fundamental to proper valve operation. Engineer the wrong solution, and you have costly problems. With Remote Control as your partner, simply inform us of the application and our experienced team will develop a complete solution. That means selecting the appropriate actuator *plus* brackets and accessories. Then choose to have the package assembled for less on-site labor at installation. When you're looking for more than just an actuator supplier, call Remote Control, Inc.

A ELECTRIC / RCE

- Six sizes
- Torques: 150 to 2000 in. lbs.
- Voltages: 12, 24, 115, 220 VAC; 12, 24 VDC
- Aluminum or resin enclosure
- Manual override
- Fail-safe battery pack, solid state electronic positioner optional

B ELECTRIC / RCEL

- Thirteen sizes
- Torques: 520 to 21,700 in. lbs.
- Voltages: 24 to 440 VAC, 24 VDC
- Single and three-phase
- Worm drive, torque switches, manual override, heater standard

C FAIL SAFE ELECTRIC / RCM 700 SURE CLOSE

- Nine sizes
- Torques to 50,000 in. lbs., higher torque options
- Voltages: 115, 230 VAC; VDC available
- On/Off and modulating
- Electro-hydraulic
- Explosion-proof, M-1 manual override optional

D M-1 MANUAL OVERRIDE

- Decouplable
- Integral to actuator
- Adjustable travel stop capabilities
- Low rim pull forces

E PNEUMATIC / RCI 200

- Nine sizes
- Torques: 150 to 38,720 in. lbs.
- ISO 5211/ DIN 3337
- Compact scotch yoke design
- Double acting, spring return
- M-1 decouplable manual override optional

F PNEUMATIC / RCI 300

- Three sizes
- Torques: 94 to 1676 in. lbs.
- Rack and pinion design
- Double acting, spring return
- Stainless steel construction
- ISO bolt circle
- Namur mounting pad for accessories

G PNEUMATIC / RCI 400

- Eleven sizes
- Torques: 24 to 12,919 in. lbs.
- Rack and pinion design
- Double acting, spring return
- ISO 5211/ DIN 3337
- Manual gear override optional

H PNEUMATIC / RCI 500

- Fifteen sizes
- Torques: 9820 to 1180,352 in. lbs.
- Scotch yoke design
- Double acting, spring return
- Manual override optional

I PNEUMATIC / RCI 88

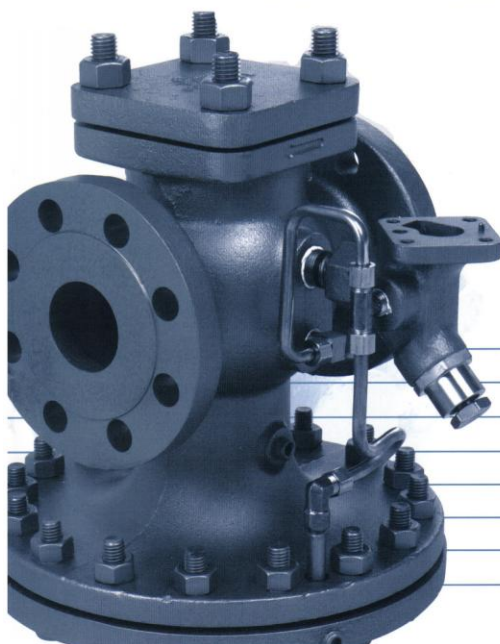

- Scotch yoke design
- Torques to 77,435 in. lbs.
- Compact, light weight design
- Double acting, spring return

J PNEUMATIC / RCI 100

- Two sizes (90, 100)
- Torques to 150,000 in. lbs.
- Compact scotch yoke design
- Double acting, spring return
- Cast iron or aluminum
- M-1 decouplable manual override optional

**WATSON
MCDANIEL**

**Precision
Manufactured
Steam
Products**

Steam Traps

Pressure Regulators

Temperature Regulators

Condensate Pumps

Relief Valves

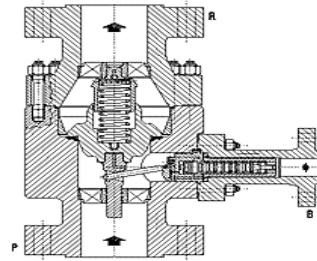

Liquid Drainers

Specialty Products

Automatic Recirculation Valves:

- From 150# to 2500# Pressure Class
- 1" through 12" sizes
- Multi-Stage Pressure breakdown
- Carbon Steel, Stainless Steel, and exotic materials available

CRANE

Aloyco

- Gate, Globe, and Check Valves,
- 2" thru 36"
- 150# thru 600#, Flange and Butt weld
- Stocked in Lakeland
- Cast Steel, Cast Iron, Bronze, High Alloys

ChemValve®

- Lined Plug Valve
- V-Port rotary control valves
- Many different liner materials

SURE SEAL AN OXY-FLUID TRANSFER GROUP COMPANY

- TFE lined ball valves and butterfly valves
- Sample Valve stem, TFE lined & un-lined
- Elastomer seated butterfly valves
- Stainless steel butterfly valves
- Sanitary / pharmaceutical / rotary butterfly valves
- High Performance, double offset butterfly valves

VAL-MATIC

- AWWA Butterfly Valves 4" – 108"
- Eccentric Plug Valve 1" – 36"
- Foot Valves 2" – 16", Air Vents
- Silent Check Valves 2" – 16"
- Swing Check Valves 2" – 36"

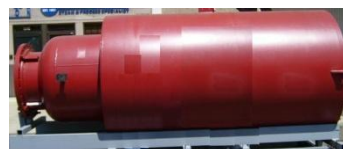

- Limit switches for linear and quarter turn movement
- Positioners, 3-15 psi, 4-20 ma, HART, Field Bus, Profibus, ASI
- Stocked in Lakeland

AARDING ACOUSTICS

- Vent Silencers for safety valves and vent valves

Check Valves

Gate and Globe Valves

Triple offset metal seat butterfly valves

Gate, Globe, and Check Valves. Turbine Extraction

PROMATION ENGINEERING ELECTRIC ACTUATORS

- Quarter-turn and sliding stem
- All voltages, 1 ph, 3 ph, DC
- Profibus, Fieldbus, and other busses
- Proportional and on/off
- Spring Return electric and battery backup
- 135 in lb to 40,500 in lb torque
- Stocked in Florida

- 3-way and 4-way solenoid valves
- Solenoid-operated stop valves
- Filter regulators
- Flexible voltage coils that work with voltage ranges
- Pressure transmitters and Pressure and temperature switches

And so many other brands

- **If you don't know where to get it, call us.**
That's our specialty.
- We are not like any other valve distributor that you have worked with. Because of our repair division, we are familiar with and have contacts for just about any valve or actuator that you may have in your plant.
- **Part Numbers?** Part numbers are nice but not always available. If you do not have the part number of the valve that you need, we will not send you away like many other distributors. We will take what information you have and determine the right valve for the application.
- **Special Fabrications and Automation** We can adapt valves to except actuators of just about any kind and size.

Complete Valve Repair Facility

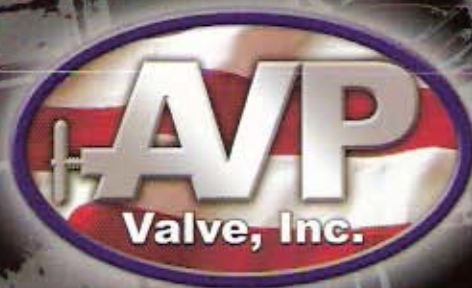

Field Machine & Complete Machine Shop Capabilities!!!

- Dresser "Consolidated" Green Tag Center
- Authorized "VR" Safety Valve Repair Facility
- Authorized Motor Operated Actuation Repair Center
- Gate, Globe, Check, Bolted Bonnet & Pressure Seal, Butterfly & Ball Valve Repair
- Control Valve & Actuation Repair Center: Leslie, Masoneilan, Fisher, Valtek & Others

OEM Authorized Repair Center for:

- Valvtechnologies
- Weir
- CCI
- Atwood Morrill
- Powell
- Newco
- Hopkinsons
- Crane
- Pacific
- Limitorque
- Leslie

& many more

Our Mission

To be the lowest cost provider of the quality service and product that we offer and to deliver these services and products in the most efficient, responsive, and safest possible manner while meeting the customer's reasonable expectations.

Capabilities

Valve Services and Products

AVP Valve, Inc. is the industry's best choice for parts and service. Contact us anytime and deal with knowledgeable professionals who speak your language and can solve problems quickly.

Night and weekend emergency service available.

In-Shop Valve Repair

We offer complete valve repair service that can provide a wide variety of on-site and in-shop repairs.

Our location is authorized by the American Society of Mechanical Engineers (ASME) and the National Board of Boiler & Pressure Vessel Inspectors (NB) to repair safety valves and components.

Field Service

AVP Valve, Inc.'s extensively trained and certified technicians can perform routine maintenance and emergency service in your plant. Our mobile trailers can also be located in your plant to perform a full range of valve repair services. Portable electronic valve testing units allow us to perform in-line valve performance evaluation without the loss of system operation or pressure.

Site-Evaluations

We offer a broad range of field repair and maintenance capabilities, including: fast call-out response services and delivery of parts, factory (OEM) trained personnel, and proactive maintenance programs. Experienced mobile field support teams are available 24 hours per day and utilize high technology equipment to safely troubleshoot, disassemble, rebuild and reassemble on-site valves and specialized actuation equipment.

Valve Distribution

AVP Valves, Inc. is an authorized sales representative for a number of the industry's finest original equipment manufacturers (OEMs). We distribute top quality, brand names, new related instrumentation and other process-system components directly to the customer. Because customers place many of their orders in connection with planned-turnarounds, it's very likely that we have the parts that the customer needs.

Value-Added Distribution Service

Our value-added distribution services involve the assembly, setting, testing and sealing of various valves at our service center. Other services that we provide include: assembling original valves with optional components; combining valves for specific applications; testing and calibrating individual components, accessories and complete equipment packages.

Safety

AVP Valve, Inc. feels that Safety is the most important factor in servicing our customers. AVP has a dedicated and experienced Safety Director with "Hazardous Energy Control" training.
